LASER CUT SHEET REPAIR ORDER

NAF-RO-MD

One Side Blank
to be printed with Laser Printer
The other side is pre-printed
with verbiage shown at left

These stock forms can be used as a substitute for any repair order system using blank white paper.

One side is fired by your laser printer. The pre-printed side is used by your Technicians, Warranty Administrator and Service Advisors. Pre-printed verbiage on back allows for easy warranty administration, mechanic's notes, prior damage history reports and flat rate time sheet affixing (if applicable). Forms are printed on 32 lb. buff ledger paper which stand up to mechanic's heavy usage and allows for easy identification of work order vs. invoice. Forms are packaged 2000 sheets per carton. We can also customize a version of this form if a different design is desired.

1 case (2000 sheets) \$90.00
5 + cases \$75.00 each
